

## Description

The Spectrum 80 GREEN has an 80mW laser for amazingly effective single-colour effects for this category. Ideal for DJs or mobile discos, the Spectrum 80 GREEN, thanks to its green light source, allows multiple effects to animate the dance floor during weddings, private parties, etc. Easy to use, offering no less than 128 internal programmes (tunnel effects, waves, geometric patterns, graphics...) for automatic or music-controlled operation, the Spectrum 80 GREEN is fully controllable by DMX on 11 channels to precisely control the laser effects and their rotation speed, and for remote supervision of the many options available to create a multitude of stunning effects.

## Features

- Type of use : [al\_so]
- Additional Specs :
- Light source: 1 x 80mW/520nm green laser
- Class 3B laser with safety key and interlock connector
- Complies with the European standard EN60825-1:2014
- Mirror motors: stepper
- Number of internal programmes: 128
- Modes: Auto, Music-controlled and DMX
- Number of DMX channels: 11
- DMX input/output: XLR 3-pin
- Frame: steel
- Cooling system: fan
- Supply voltage: 100-240V, 50/60Hz
- Power consumption: 40W
- Weight and dimensions: 1.7kg, 200 x 260 x 150mm
- Protection class: IP20 (indoor use)
- Supplied with power cable and velcro cable tie, yoke mounting bracket and safety sling
