

Description

The EVENT PAR 44 QUAD IP is the most compact and versatile battery-powered IP Par developed by Algam Lighting to date. With its 12,5 cm sides, this sleek little cube offers impressive performance thanks to its 4 x 4W RGB+WW (Warm White) LEDs projecting over a 25° angle, offering a full palette of colors and a very pleasant rendering. The warm white rendering, with a temperature close to that of incandescent bulbs, is perfect for creating warm atmospheres anywhere. Robust and well-built, the EVENT PAR 44 QUAD IP is equipped with a lithium battery offering up to 30 hours of operation in automatic mode (8 hours in all- color mode), an IP65 rating for outdoor weather protection, and a Wireless DMX control protocol for remote control without needing a cable. With its streamlined lines, compact size, built-in battery, IP65 protection, Wireless DMX, remote control and cleverly designed baseplate allowing installation on the floor or on a structure, this EVENT PAR 44 QUAD IP offers unrivalled installation flexibility.

Features

- Colour composition : [AE_projmotorises_compocouleurs009]
- Cooling : Passive
- Device colour : [VPROJ_couleurappareil002]
- Index of protection (IP) : [AE_projmotorises_ip006]
- Number of LEDs / Power : 4 / 4W
