

## Description

The BARWASH 244 is a versatile RGBW LED bar for all your architectural and performance lighting needs. Its 24 x 4W RGBW LEDs, each individually controllable in 8 groups, and 6 DMX control modes guarantee brilliant colors, impressive brightness and spectacular effects. The intuitive LCD interface and automatic music-detection modes make it easy to use for all types of performances and events. With its robust construction and universal mounting brackets, BARWASH 244 is easy to install in any configuration. Whether you're a lighting professional or a demanding amateur, BARWASH 244 is the ideal tool to enhance your events and spaces.
